Description  
0.1570244 BTC RECOVERED FOR [REDACTED]

**FRAUDULENT**

Our objective and main goal here is asset recovery as that is what your charges are for as we will keep up with our crypto investigation finding where your assets are.

NOTE: It is inconceivable that the investigative process would finish without us giving all the details to relevant law enforcement for them to get the benefit of the work and charge the firm involved in the loss of your funds if found guilty.

This is in reference after acknowledging your form and passport which the operating department is currently working on to enroll you into our database. It has come to our notice about your lost digital currency invested with MORGAN INVESTMENTS LIMITED and RECKON TRADES.

It's our duty to dedicate top experts in line to resolve this issue, it is not an easy process but within a time line of 7 months we must have successfully recovered 100% of your own share from the assets.

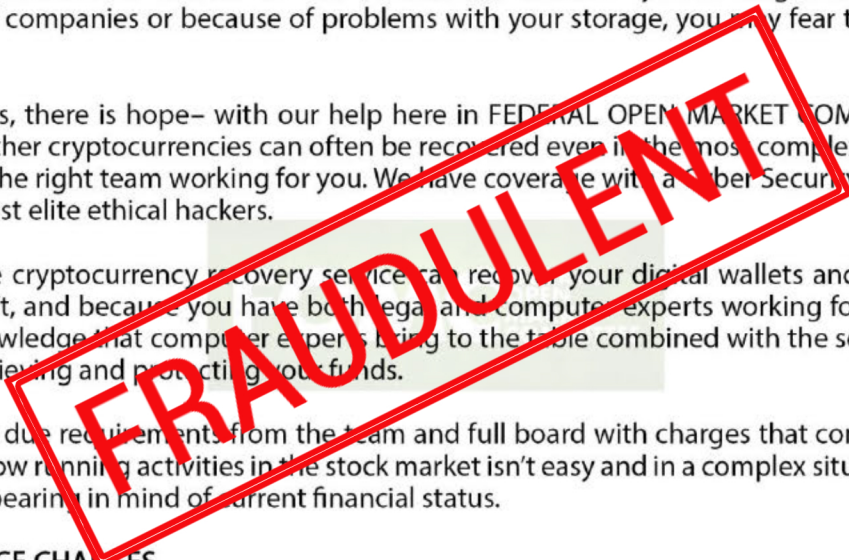

Cryptocurrencies like Bitcoin and Ethereum have dramatically increase in value, with even a single Bitcoin now worth tens of thousands of dollars. Since these virtual currencies have become so valuable, owners must ensure they have access to all of the coins they own.

Unfortunately, there are many people who have lost access to their bitcoins, their ethereum, or to the digital wallets where their cryptocurrencies are stored. Whether you have lost your Bitcoin or other cryptocurrency because of a fork in the blockchain, because you've forgotten your password, incompetency of companies or because of problems with your storage, you may fear that your coins are lost forever.

The good news is, there is hope- with our help here in FEDERAL OPEN MARKET COMMITTEE . Bitcoins, ethereum, and other cryptocurrencies can often be recovered even in the most complex of circumstances as you will have the right team working for you. We have coverage with a Cyber Security firm run by some of the world's most elite ethical hackers.

Our collaborative cryptocurrency recovery service can recover your digital wallets and cryptocurrencies when others can't, and because you have both legal and computer experts working for you, you get the unparalleled knowledge that computer experts bring to the table combined with the security of having a top manager retrieving and protecting your funds.

You are to follow due requirements from the team and full board with charges that comes twice in every month as you know running activities in the stock market isn't easy and in a complex situation you face our charges are low bearing in mind of current financial status.

**UPFRONT SERVICE CHARGES**

- VAT CHARGES - \$290
- OPERATION SYSTEM CHARGE - \$350
- LAWYER FEE - \$897
- SECURITY FEE - \$310

You will be enrolled into a high profile system where your assets can be stored and not affected by the market value fluctuations as we keep working to recover as much as we can. You will receive weekly updates from our newsletter on your email so always keep watch.

We offer the best rates currently globally and hope we can be of good service to you too.
